

Melete Cluster Usage

About Melete

@melete.hpc.lsu.edu

- fastest cluster (1000 TFlops)
- most nodes (360 total compute nodes)
- moderate memory (64 GB per node)
- 3 queues with a maximum run time of 3 days each
 - > use queue 1 if you need less than 50 nodes for your job
 - > use queue 2 if you need less than 100 nodes
 - > use queue 3 if you need less than 100 nodes
